

# Coronado Resources Ltd.

TSX.V:CRD

## A Producer of Gold and Copper

Coronado Resources Ltd. is a Canadian based mineral exploration and development company that is focused on its 100% owned Madison Gold/Copper property in Montana, USA. Madison is located in Silver Star near Butte Montana and is a former producer that is now receiving profits from high grade copper and gold shipments which commenced in 2008. The company remains focused on expanding the Madison project with continued exploration and development drilling being funded from the cash flow. Our proven management team is actively pursuing new mining and exploration opportunities for its investors with minimal share dilution.

### Company Highlights

- Owns 100% interest in the currently producing Madison Gold/Copper mine in Silver Star, near Butte Montana USA
- Debt free
- Site infrastructure in place including roads, power, crushing plant, weigh scales & established buying partners for gold & copper sales
- Exploration and development program ongoing into new high grade Gold ore zone averaging .48 oz/t
- Proven management with successful track record of mine development and exploration success
- Signed letter of intent to option the "Panique Gold Project" located in the prolific Masbate mining district in the Philippines

### Eugene 'Gene' Larabie P. Eng - President, Director

Mr. Larabie has 52 years experience in the mining industry. He graduated from Haileybury School of Mines in 1957, and is a member of the Professional Engineers Association of the Provinces of Ontario & British Columbia, Canada. In 1980-88 Gene became manager and later President/Director of Dankoe Mines Ltd. While serving as President of Curion Venture Corp., a Canadian smallcap stock, he entered into a joint venture to explore for gold in Honduras. The joint venture was successful in bringing a gold property to feasibility and was sold to Glamis Gold. He formed Laroth Engineering Ltd., a private mining consulting & contracting company, working in mining exploration & underground mining in several Asian countries as well as Central America, U.S., & Canada.

## Project Highlights

### Madison Gold/Copper Project, Montana, USA

- All mining and environmental permits in place
- Recent copper shipments from Coronado's 100% owned Madison Gold/Copper Project averaged over 35% cu and Gold shipments averaged over .45 oz/t au.
- Completed mapping, surveying, surface sampling, bulk sampling and three separate Diamond drill programs
- Exploration and development program ongoing into new Gold high grade ore zone averaging .481 oz/t.
- Advancing decline into recently discovered high grade gold zone to commence extraction of ore.

### Gold Results from 2009/2010 underground diamond drill program at Madison Mine

### Panique Gold Project, Philippines

- Signed a Letter of Intent to option several mining concessions in prolific **"Masbate Gold Mining District"** in Philippines
- Coronado's new "Panique Gold Project" will consist of at least 3 mining concessions.
- All three concessions lie within a 3.5km wide mineralized gold zone. The "Panique" is located just 600 Metres from one of two open pits at the World Class CGA Mining's (TSX: CGA, ASX: CGX) "Masbate Gold Project".
- The "Masbate Gold Project" is expected to produce 200,000 oz au in 2010 and has reported gold resources of 9 million ozs (including >1m ozs of historical production 1980-94)

### About Masbate Gold Mining District

- The Masbate Gold region is largely located in Barangay Puro, Aroroy, and Masbate. The oldest mining district in the Philippines is Aroroy located on the island of Masbate which is approximately 360 kilometers southeast of Manila, Philippines
- The Philippines is rich in natural resources with large scale gold, copper and nickel deposits attracting investment from a number of major international mining companies including Anglo American, AngloGold Ashanti, Xstrata, BHP Billiton, Sumitomo and numerous others
- The Philippines Government has been very supportive of the development of natural resources within the country and offers many attractive tax incentives
